### THE COASTING TRADE SQUABBLE.

The repeated and determined efforts made by the Hobbites to strike out that clause of the Ordinance regulating our coasting trade, which empowers the Governor in Council, "should special circumstances make the granting of such privileges desirable, hereafter to license and authorize any foreign bottoms to engage in the coasting trade or inland navigation of British Columbia," probably affords a more tangible proof of the innate selfishness, and contracted dog-in-the-mangerism of that class of our legislators than anything else which has marked the, as yet, unwritten history of British Columbia. Under the plausible and patriotic cloak of protecting and building up the maritime interests of the Colony, they desire to perpetrate a public injury, in order, so far as we are able to discern, to give an absolute monopoly of the carrying trade to a single company. In order to accomplish this very unpatriotic object, the national feelings of the members are appealed to, and they are asked to decide whether "the flag that has braved ten thousand years, the battle and the breeze" or the "Star spangled banner" of the neighboring Republic shall flatter upon our waters. We give way to no man in a sincere desire to see British Columbia take that rank as a maritime power on the Pacific which her unrivalled natural advantages would seem to point out as her ultimate destiny; nor are we less anxious to see the Hobbites to see the glorious old flag waving over our waters. But we are not so prejudiced against foreign bottoms, nor so blindly zealous for British bottoms, as to absolutely exclude the former at the present juncture, when to do so would be to inflict a serious injury upon the Commercial interests of the country. When we hear men who but the other day hinted at annexation to the United States as a thing to be desired, talk so glibly about British interests and British flags we are very apt to suspect their honesty, and look for some motive other than that put forward by them. Let us look for a moment at the issue, and see what these men really aim at. In the case of the Active, or any other steamer or vessel, being a foreign bottom, coming to this Colony with a cargo, partly for Victoria and partly for New Westminster, these men claim that such vessel shall not be allowed to carry that part of her cargo which is for New Westminster to its destination, but shall be compelled to discharge the whole at Victoria! Doubtless a very nice little game to bring grist to the H. B. Co.'s mill at the expense of mainland importers; for there would not only be the freight by the Enterprise, but wharfage, commission, &c., and the necessity of employing an Agent at Victoria to pass the goods through the Custom House there, all of which would be an additional cost quite equal to the freight from San Francisco. Vessels seeking freight at Nanaimo, the only port in the Colony as yet enjoying a large export trade, frequently come in cargo, in whole or in part for Nanaimo. But if the Hobbites had their way, such vessels would be compelled to discharge all their freight at Victoria and incur the delay and expense of taking in ballast in order to go round to Nanaimo, while the Nanaimo merchant would have to pay wharfage, storage and commission charges upon his goods thus dumped down at a way port, and in addition to all that, a good smart sum for hav-

ing them conveyed to their destination. These instances may suffice to show not only the great hardship to commerce which would accrue under the exclusive policy advocated by Victoria politicians, (?) but also the selfish motives by which they are actuated. But these are by no means the only class of cases that might be adduced in order to show how important it is, in the present circumstances of the Colony, that the Governor should be invested with the power of admitting foreign bottoms into the coasting trade. The case of the American steamer "Forty-nine" which did the country such good service on the Columbia River last year, while the greedy and short-sighted policy exhibited in the management of the Hudson Bay Company's steamer "Martin" was disgusting and driving people out by a foreign route, may be mentioned as a case in point, while that of the Telegraph Company, with their fleet of steamers and vessels plying on the coast, and navigating our inland waters may be mentioned as another. In fact it is needless to multiply instances, for in the present circumstances of the Colony it must be clear to everyone who devotes the least thought to the subject that cases may occur any day where to absolutely exclude foreign bottoms would be fatal to the public interest.

### FROM CARIBBOO.

Mr. Todd, of Barkerville, arrived in this city last evening, and has kindly supplied the following items:—He left Williams Creek on the 5th inst; weather mild, snow 5 feet deep, health good, markets well supplied, prices reasonable. Many claims working and taking out good pay. Borealis washed up 287 ounces for the three days before he left.

On Grouse Creek the Heron, Fall Rigg and Discovery continued to pay well. Travelling was good all the way to Yale.

### LATER.

Mr. Jones, of the Bank of British Columbia, received a telegram from Quesnelmouth last evening, stating that the Washburn Co. on Canyon Creek, had struck the lead very rich at a depth of 50 feet.

WARLIKE PREPARATIONS.—The Montreal Gazette has been shown a private letter from Halifax in which an account is given of the fortifications of that port. The very utmost activity prevails, and according to the letter men swarm about the forts like bees. A position naturally strong is, by modern appliances, made impregnable, and put in a condition to defy the navies of the world. The Islands and the whole entrance to the harbor are dotted with forts, and as many as 400 guns could be instantly brought to bear on any one point. This expenditure and these works do not show any disposition on the part of Great Britain to withdraw her protection from these Colonies, or to allow them to fall a prey to any invader.

THE YACHT CORRESPONDENCE.—The Boston Advertiser suggests that the following would have been more to the point and cheaper for sending over the cable than the letters that were sent:

Mr. Bennett to Prince Alfred: OFF COWES, December 31, 1866. Your Royal Highness—I'm going to give you my yacht; my regards to your mother and the royal family. Yours, J. G. BENNETT JR. Prince Alfred to Mr. Bennett: Dear Sir—I must decline with thanks; this establishment does not advertise in the New York Herald. ALFRED.

DEATH OF DR. LIVINGSTONE.—The following meagre notice of the death of this renowned African Explorer appears in the San Francisco papers. In the absence of fuller information we can only hope that there is some mistake in the matter:—London, March 6.—Advices from the Cape of Good Hope have been received, giving intelligence that Dr. Livingstone, the African explorer, was killed by the Kaffirs.

POSTPONEMENT.—The sale of the effects of the "Goulding Estate," now in bankruptcy, which was to have taken place here on Monday the 25th inst., is postponed until Monday April the 3d. [See Advertisement.]

THE WEATHER continues delightful, the river being perfectly clear of ice.

SATURDAY, MARCH 23, 1867.

## LEGISLATIVE COUNCIL.

The House met at 3 o'clock on Wednesday. Present:—Hons. Birch, Crease, Wood, Trutch, Hamley, Brew, Ball, Young, Cox, Franklin, Sanders, O'Reilly, McDonald, Smith, Pemberton, DeCosmos, Helmecken, Southgate, and Robson.

### NOTICES OF MOTION.

Hons. Robson and Helmecken gave notice of motions for Thursday and Friday.

### ORDERS OF THE DAY.

The Hon. Dr. Helmecken moved. That an address be presented to His Excellency the Governor, praying that the sum of \$3,000 be granted for the purpose of liquidating the debts of the Royal Hospital, such debts having been incurred upon the belief that the sum would, as usual, have been paid by the Government of Vancouver Island. The motion was carried.

The Hon. Mr. Robson moved that a respectful address be presented to His Excellency the Governor recommending that a premium of \$5,000 be offered for the first Quartz Crushing Mill erected and put into operation in the Shuswap Country, capable of crushing 25 tons of Quartz in 24 hours. Carried.

*Vancouver Road Bill.*—The Hon. Attorney-General asked leave to introduce this Bill. Leave was granted and Bill read a first time.

*Legal Professions Bill.*—This Bill was read a second time and committed for Friday.

*Curfew Bill.*—Considered in Committee, read a third time and passed. *Harbour Dues Bill.*—The House resumed the consideration of this Bill in Committee of the Whole. The Bill was reported complete and the third reading fixed for Thursday.

House adjourned until 3 o'clock on Thursday.

### THURSDAY'S SITTING.

Council met at 3 p. m. All the members present excepting Hons. Stamp and Barnard.

### ORDERS OF THE DAY.

Hon. Mr. Robson moved that a respectful address be presented to His Excellency the Governor praying that the sum of \$13,750 be granted out of the General Revenue for the purpose of liquidating the debts of the Royal Columbian Hospital. Carried.

Hon. Mr. Smith moved that a respectful address be presented to His Excellency the Governor praying that barley imported into the Colony for brewing purposes should be exempt from duty. The resolution was put and lost.

*Exchequer Debiture Bill* read a first time and referred to the Committee of Ways and Means.

*Harbour Dues Bill.*—On the third reading of this Bill being moved Hon. Dr. Helmecken made another *boresome* attempt to have it recommitted for the purpose of striking out or neutralizing the 5th clause, which empowers the Governor in Council, under special circumstances to license foreign bottoms to engage in the Coasting Trade. The Bill was read a third time and passed.

*Real Estate Repeal Tax.*—The Hon. Solicitor General introduced this Bill, the object of which was to repeal the Real Estate Tax Act of V. I., and afford the owners of property sold thereunder to redeem their property by paying interest at the rate of 21 per cent. The Hon. mover made an able speech, giving a full and lucid history of the whole question, hitting in the outset that as the matter promised a local interest he had to address an uninterested audience.

Hon. Mr. Robson followed, in support of the Bill. He differed with the hon. mover as to the interest being merely local, inasmuch as the subject had attracted attention in Europe, Asia, Africa and America as the subject of one of the most extraordinary oratorical efforts known in history. A Bill similar to the one before the House had been before the late Assembly of Vancouver Island, but had been cleverly defeated by one member who was not here performing the feat of speaking continuously for 47 hours. He thought in this question there was questionable law on the one side, and justice and common-sense on the other, and it was to the latter side he would lend his support. He had only to express the hope, in conclusion, that the hon. member who spoke for 17½ hours against a similar measure, a year ago, would not repeat the operation upon the present occasion.

Hon. Mr. DeCosmos spoke at considerable length, and with much ability, against the measure, which he characterized as an illegal attempt to interfere with vested rights, and charged the hon. Solicitor General with seeking to make human sympathy for imaginary poor widows override the majesty of the law. He moved that the second reading be postponed until

parties affected had ample notice, and an opportunity of entering a defence.

Hon. Mr. Young spoke in favor of the Bill, showing in a very clear and forcible way that the working of the Act sought to be repealed had been vicious, and that the measure before the House would afford relief alike to both parties. Hons. Southgate and Pemberton also spoke in support of the Bill, mentioning instances of the unjust and pernicious operations of the Real Estate Tax Act.

The Bill was read a third time and the committee fixed for Wednesday in order to give time for notifying the parties affected.

*Land Bill.*—Hon. Chief Commissioner, Chairman of the Select Committee, reported the new Land Bill. The Report was accepted, and the Bill read a first time and ordered to be printed. Council adjourned till 3 P. M. on Friday.

### FRIDAY'S SITTING.

The Council met at 3 o'clock, all the members being present.

Hon. Dr. Helmecken handed in a Protest against clause 5 in the Shipping License Act.

### ORDERS OF THE DAY.

The Harewood Railway Extension Bill was read a first time.

The Excise Bill was read a first time. Hon. Capt. Stamp's resolution in reference to Saw-mills was taken up and discussed. Speeches were made by Hons. Stamp, Robson, Walkem, Pemberton and DeCosmos in favor of the principle of encouraging the lumber trade. The House divided when the amendment of hon. Dr. Helmecken to allow a bounty of 50 cents upon every thousand feet of lumber exported was carried unanimously.

*Legal Professions Bill.* The House went into Committee of the Whole upon this Bill. Several amendments were offered and lost, and the Bill, as introduced by hon. Mr. Walkem, was carried.

*Exchequer Bill.* The House resolved itself into a Committee of Ways and Means upon the Bill for the issue of Exchequer Debitures for \$139,000. The Bill was passed and reported. The House adjourned till 11 a.m. on Saturday.

## TELEGRAPHIC.

### SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

**EUROPEAN.**  
LONDON, March 18.—Arrests of Fenians continue in Ireland. Head-centre Donovan, who was captured in Cork, and Burke, one of the leaders recently captured, and forty others have been sent in irons to Donegal.

The debate on the Reform Bill has been postponed to the 25th inst.

March 19.—Midnight. In the House of Commons the Government asked formal leave to bring in a Reform Bill to-morrow.

March 20.—Labor riots have broken out at Rheims, France.

Pesth, March 19.—The coronation of Francis Joseph, as King of Hungary during the present visit to this city is strongly urged by all parties.

Berlin, March 20.—A treaty has been concluded between Prussia, Bavaria and the Grand Duchy of Baden. It gives Prussia the command of the armies of the Lamer countries in time of war.

Florence, March 21.—The general elections have been held. Garibaldi has been returned for three cities.

Paris, March 21.—The Corps Legislatif has sustained the Emperor's foreign policy by an overwhelming majority.

Liverpool, March 18.—There has been an unusually small number of arrivals at British ports for two or three days owing to the strong Easterly gales.

LONDON, March 18.—One of the iron clad ships of the fleet at Woolwich has been sent to Liverpool.

Dispatches from Constantinople report that the Sublime Porte shows a disposition to grant the demands of the Viceroy of Egypt.

### EASTERN STATES.

New York, March 20.—Nine ear loads of Fenian troops, fully equipped left for Oswego to-day. It is doubtless intended that they shall operate in the apprehended movement of Fenians against Canada. The latest dispatches give no encouragement to the brotherhood. The excitement has subsided. The belief is that a general insurrection is intended in Ireland and that the disturbance was accidental and temporary. The movement against Canada claims more attention and is believed to be near at hand.

Montreal has been greatly excited for several days over the report that the Victoria Bridge and powder Magazine would be blown up. A council has been held and more troops sent for to England.

Many Irishmen are assembled at St. Albans, and it is supposed that place will be the base of the Fenian movement.

March 18.—St. Patrick's day was celebrated by a great turn out, a stand of colors was presented to the sixty-ninth regiment.

A serious riot occurred on Grand Street, east of Broadway, to-day, grow-

ing out of an obstruction by a dray. The policeman protecting the dray was attacked and the fight became general, 13 policemen badly injured. Stones, swords and clubs were used; several rioters were arrested, one a Marshal.

A Royal decree has been issued in Spain, authorizing the Spanish Minister of Marine to contract for a submarine cable to Porto Rico, Mexico and Panama.

MONTREAL, March 18.—Although there is nothing on the frontier to cause alarm at present, active preparations are being made to have troops in readiness to move at once to any point.

CHICAGO, March 18.—The floods in the South are receding; railroad communication will soon be re-opened through the country.

St. Louis, March 18.—The passengers and crew rescued from the steamer Mercury had arrived at that place. Many of the passengers were badly frozen by standing in the water. Capt. Dickinson reports that the crew of the steamer Geo. D. Palmer plundered the wreck of the Mercury and rifled the passengers' baggage, even stealing the ladies' underclothing. Seven men who floated down the river on cotton bales and lodged against the drift, were killed by a tree blown down by the storm.

CHICAGO, March 20.—The main portion of Welland, Canada, was burned yesterday. One hundred houses were destroyed. The town is situated in the business centre of the Canada oil region.

QUEBEC, March 19.—A large body of seamen belonging to H. M. S. service have been sent West to join gunboats on the Lake for service as soon as possible.

The celebration of St. Patrick's day caused a larger turn out than for many years.

Boston, March 20.—The Massachusetts Legislature has ratified the Constitutional Amendment.

New York, March 20.—The Fenian Senate is in special session. The Roberts' circles are making active preparations for the proposed new movement against Canada. It is stated that from 18,000 to 20,000 men are arrived and ready to march to the frontier. The rumored dispatch of Government troops to the frontier arises from the fact that detachments are going to Oswego to fill the places of troops sent from thence to the Indian country.

March 21.—A Knoxville special to *Times* says the damage in East Tennessee by floods is over two millions of dollars. The loss of all kinds of stock is unprecedentedly heavy; all the farmers along the river will be very late with their crops. Many lives were lost, and in Lower Tennessee many families were left homeless.

The Irish enthusiasm in Ireland is regarded as a disgraceful failure. Several meetings have been held to consider the subject of the early invasion of Canada. The steps taken look something like work.

### CALIFORNIA.

SAN FRANCISCO, March 20.—The str. Colorado, from China, arrived this morning. A terrible explosion took place in the harbor of Hong Kong about noon on the 17th January. A hulk called the Zephyr, used for storage of powder, blew up and was totally destroyed, as well as the Bremen, a three-masted schooner, which was taking in powder at the time. From thirty to forty persons were killed, those on board the above-named vessel being blown to atoms as no fragments of them were afterwards found. Many persons who were in boats in the neighborhood were killed by the explosion. There were two Europeans on board the Zephyr, and seven Europeans and two Chinese on board the schooner of whom no trace was found. The Zephyr had 200,000 pounds of powder on board.

GALVESTON, March 21.—Rio Grande dates to 16th say a battle took place at Calayapala between a small part of the forces, not over 2500 on either side. Max took part in person. The result of the appearance of Max was that the Imperialists were victorious. Diaz was about to besiege the Capital.

NEW ORLEANS, March 21.—The U. S. Consul at Vera Cruz reports that all French troops were embarked on 12th March.

ANOTHER TREAT.—The N. W. Dramatic Club will give another of their justly popular entertainments on Tuesday evening. An early application for reserve seats should be made. "See Advertisement."

GOING DOWN.—The Hon. Stamp, Walkem and Pemberton go down by the Enterprise this morning.

THE END IS NOT COME YET.—There is little prospect of the Legislature being prorogued for a couple of weeks yet.

THE NEXT MAIL STEAMER.—We understand that the California will be the next steamer from San Francisco, and that she will leave a week from today.

HO FOR BIG BEND.—Mr. McMillan of the Texas Claim, and three others started for Big Bend mines yesterday. They will be followed in a few days by about 20 others. "The early bird catches the worm"—a Tarter sometimes.

FROM VICTORIA.—The Str. Enterprise, Capt Swanson, arrived from Victoria on Thursday, and went up to Langley yesterday, returning in the evening, she will sail for Victoria this morning at 9 o'clock.

THE NEWS in our telegraphic columns will be found highly interesting.

### BIRTH.

In this City, on the 20th inst., the wife of Mr. Richard Hodgson, of a son.

TOYS AND FANCY GOODS.—G. C. Clark and Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf.

### HOLLOWAY'S OINTMENT AND PILLS.

—Fear Not.—Though surrounded by circumstances disadvantageous to health, these remedies, properly applied, will cut short fevers, influenza, inflammation, diphtheria, and a host of other complaints always lurking about to seize on the weak, forlorn or unwary. The superiority of Holloway's medicines over others for subduing disease has been so widely and fully proved, that it is only necessary to ask the afflicted to give them a trial, and if the instructions folded round them be followed no disappointment will ever ensue, nor dangerous consequence result. In hoarseness, and ulcerated sore throat the Ointment should frequently be rubbed on the neck and top of the chest; it will arrest the increasing inflammation, allay disquietude, and gradually cure.

## JAY'S CATHARTIC PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your bowels uncomfortable? These symptoms often the prodrome to serious disease. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Jay's Pills, and cleanse out the disordered system—purify the blood, and let the fluids move unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the impurities which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. While in this condition, oppressed by the derangements taking place, and see now directly they remove the natural action of the system, and with it the latent feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in every case of the depressed and dangerous disorders. The purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the system, they are equally, and many of them surely cured by the same means. None who know the virtues of these Pills, neglect to employ them in cases suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Purveyor Merchant of St. Louis, Mo. A. 1866.

Dr. JAY'S PILLS are the paragon of all pills for the bowels. They have cured me of a chronic constipation of the bowels, and have been long known to me as the best medicine for the bowels, and I have cured many others with them.

Headache, Sick Headache, Pains of Stomach.

Dr. JAY'S PILLS. I cannot answer you what complaints I have cured with your Pills better than to say all that I ever treat with a purgative medicine. I place great confidence in your Pills, and I have cured many cases of disease, and believing as I do that your Pills are the best we have, I can assure you that they are.

Dr. J. C. AYER, Sr. I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a full stomach, which they cleanse at once.

Yours with great respect, Dr. W. PREBLE, Chief of St. George Hospital.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purgatives. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

THE Public are respectfully informed that James Codville, of the wide renowned Codville Landing Ranch, is prepared to receive any number of animals and cattle to ranch this coming winter, on the most liberal terms.  
Large Reductions from the regular price made in favor of trainees.  
Persons intending wintering their own stock can be accommodated with Hay in the stack, and stables and sheds for their animals, and Houses for themselves, on the most reasonable terms.  
The Ranch is situated on the opposite side of the Fraser from that of Sumas, is an island 6 1/2 miles long by 4 1/2 wide, is high and dry, no place where animals can die, well protected from north winds, free from any kind of poison weed, and affords every facility, natural and artificial, for the accommodation of stock.  
James Codville would also call public attention to the fact that he is prepared to furnish Hay at a very reduced price, and in quantities to suit all purchasers.  
In returning thanks to the Public for past patronage, I am in hopes that the good condition in which I turned out animals on former seasons will secure for me a share of the Public patronage this coming winter.  
Horse covers, pick saddles, and all rigging taken care of, and every satisfaction given for the least possible charge to those who may entrust their stock to me, or order Hay.

**ADVICE GRATIS!**  
**HOLLOWAY'S PILLS**

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhoea, constipation, liver complaints, &c. as fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreased organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilarating influence of this medicine, by the restorative and exhilarating influence of this medicine.

**Female Complaints.**

All disorders of the sex, and diseases in every crisis, whether to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

**Indigestion with languor and want of energy.**

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better. Your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

**DROPSY.**

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this dreadful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and reduces in a completely renovated constitution, but it is indispensably necessary that the Ointment should be most effectively rubbed into the complaining parts.

**Stomach, Liver, Kidneys and Bowels.**

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving healthy action to the liver; if bilious attacks be allowed to continue, serious evils may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day, and the Pills taken in union, will cure any complaint arising from these organs.

**Puffy, Shortness of Breath with Weakness.**

Very bad symptoms, which if not corrected, may lead to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly before going to bed, and plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this for three days, and the result will be unvarying.

**Complaints incident to Children.**

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague, Female Irregularities, or King's Evil, Bilious Complaints, Puffiness of all Sorts, Throat, Stomach and Gravel, Stomachic Symptoms, Skin, Head-ache, Rheumatism, Dropsy, Constipation of Bowels, Inflammation of the Liver, Complaints of the Liver, Dropsy, Piles, Retention of Urine, &c., &c.

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar) London, also by the respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—Is. 13d., 2s. 6d., 4s. 6d., 12s. 22s., and 50s., each Box.

\*There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
